I can't believe that it has been thirty years since I first read this novel. It is still as vivid to me now as if I was reading it yesterday. And though time may have changed my perspective on the story, one thing has not: this book captured my heart and made me love reading. I am rereading it for the second time in preparation for writing an essay on the novel for school, but I would recommend this book to anyone-young or old-who enjoys a well written romance novel. It is rare to find a novel that appeals to all of the senses, but this one does. You can smell the hot, fetid air, see the crumbling walls and rough timber beams, taste the wine; feel the rough linen of the bedclothes against your skin; hear the birdsong in your mind; and touch Romeo's cheek... I simply cannot praise this book enough. It is beautifully written, with wonderful romantic descriptions that bring tears to your eyes whilst making you tingle down to your toes. I just love it! The characters are engaging and well developed which makes it not only fun reading but also easy to become emotionally involved with them. The plot is excellent with just enough twists and turns to keep you guessing. The only criticism I would offer is that I felt that the ending was somewhat rushed. I would recommend this novel to anyone with an imagination who enjoys a good romance with sizzling romantic tension, two characters who are so much in love they can barely think of anything but each other, and who doesn't mind shedding a few tears now and again. I love this book so much I became too afraid to read anymore by Agatha Christie after reading it. This book has everything; mystery, suspense, romance, humor/tears-and the voice of the main character is magical. The main character, Juliet, has such a strong devoted voice. She's passionate and profound and rude and loveable all at the same time. I recommend this book to anyone who loves a good story; if you don't like romance novels (no offence), I think you could appreciate and enjoy some of the other elements in this book...well, kinda sorta...maybe! A timeless classic that can be read over and over again without getting boring or repetitive. A truly spectacular love story that is tragic yet endearing. I had never heard of Agatha Christie before reading this book at age 11 (it was one of my mother's favorites). The plot is very well done, the main characters are interesting, and the writing is very good. It's even thrilling in places. The book has a timeless appeal. I read it again when I was 25. I was delighted to read it yet again when I was 50. It is still a favorite! Juliet Ashton, an avid writer of literary reviews in her small town in England, is persuaded by her old friend Charles to take on the job of writing for his new paper, "The Reviewer." Charles has recently taken over the paper from its eccentric previous owner, Emily Henderson.
